## **BEFORE USE**

#### Important information

Please read this instruction manual carefully before using this product, and retain this instruction for future reference.

Improvements and changes to this text necessitated by typographical errors, or improvements to the software and / or equipments may be made at any time without notice.

#### **Care and maintenance**

- Avoid vibration, shock and pressure e.g. dropping the microscope.
- Keep the device dry and protect it from water or vapour.
- Do not leave your device in a place with extreme high or low temperature.
- Do not touch the device with a wet hand as it may damage the device, or cause an electric shock to the user.
- Do not use or store the device in dusty, dirty areas as its moving parts may be damaged.
- Do not use harsh chemicals, cleaning solvents or strong detergents to clean the device. Wipe it with a soft cloth slightly dampened in a mild soap-andwater solution.

#### Warning

- Do not place lighted wireless microscope upon the eye, doing so may cause permanent eye damage.
- Do not attempt to open or dismantle the wireless microscope.

### **Product description**

This wireless microscope features a 640 x 480 CMOS sensor and can be paired with up to 2 Wi-Fi enabled devices within a 10m range. It is compatible with most Android, IOS, Windows and Mac OS devices.

Simply connect the device to the wireless microscope's WLAN access point to start viewing, capturing and recording live images.

#### **Computer requirements**

Smartphone (Android and IOS)

WLAN	Wi-Fi 802.11 b / g / n
------	------------------------

Windows based PC

Compatible operating systems	Windows 10 (32 bit or 64 bit) Windows 8 (32 bit or 64 bit) Windows 7 (32 bit or 64 bit)
WLAN	Wi-Fi 802.11 b / g / n

Mac OS based PC

Compatible operating systems	Mac OS X 10.5.6 - Mac OS X 10.15.x
WLAN	Wi-Fi 802.11 b / g / n

## PRODUCT AT A GLANCE

### Package contents

Wireless microscope

Adaptor

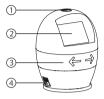

USB cable

User manual

#### **Product overview**

- 1. Capture button
- 2. 2" LCD Display
- 3. Focusing ring
- 4. USB port

- 5. Adaptor slot
- 6. Indication light
- 7. Power button

### Product specification

Connection type	802.11 b/g/n
Effective magnifications (on a 17" monitor)	75x
Effective magnifications (on a 2" LCD Display)	9x
Effective viewing area	4.3 x 3.2 mm
Illumination	Four LEDs
Sensor	CMOS
Size	ø82 x 105 mm
Weight	175 grams

## **GETTING STARTED**

### Charging

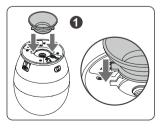

Charge the wireless microscope before using it.

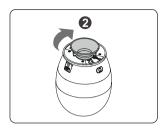

Connect the wireless microscope to a computer with the USB cable provided.

Status	Indication light colour
Charging	Red
Charged	Green

### Assembling the product

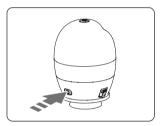

Insert the adaptor into the adaptor slot.

Fasten the adaptor by turning it gently in the clockwise direction.

### Turning on the device

Press and hold the power button for 2 seconds.

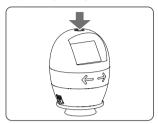

LCD display and green indicator light will turn on.

#### Focusing

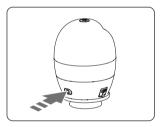

Adjust the focus of the image manually by rotating the focusing ring.

### Capturing (Only available when connected via Wi-Fi)

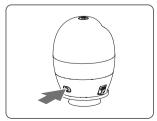

Press the image capture button to capture an image.

### Turning off the device

Press and hold the power button for 2 seconds to turn off the device.

### Wi-Fi On/Off

Short press power button to turn the Wi-Fi on or off. A Wi-Fi symbol will appear on top right corner of the screen when Wi-Fi is turned on.

## INSTALLING THE SMARTPHONE APP

Search for "xploview" on Play Store or App Store on your mobile device and install the app.

## USING THE XPLOVIEW APP ON A SMARTPHONE

#### **Connecting the device**

Turn on the wireless microscope (see P.9).

Go to "Settings".

Turn on Wi-Fi connection.

< Wi-Fi	<u>()</u> -
xploview Connected	((r-
Saved, secured with WPA2	(R)
Not in range	

Search for and connect to "xploview\_xxxxx" under the list of available devices. ("xxxxxx" is a 6 digit code unique to your device.)

The default password of the device is 12345678.

### Open the xploview app

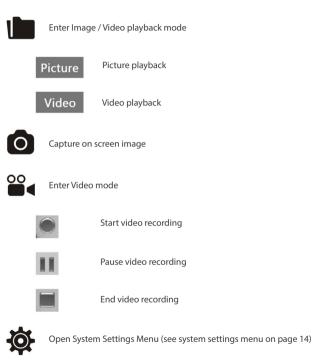

### 🛕 Note

The performance of the device may be affected in an environment crowded by Wi-Fi signal.

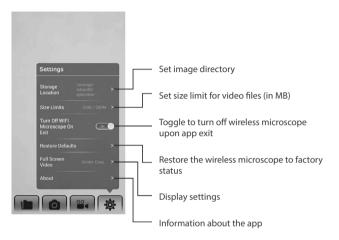

User may experience a delay in real-time image display depending on the speed of the Smartphone processor.

#### **Button menu**

The icons on the button menu:

#### System settings menu

#### **Deleting an item**

Android: Press and hold an item for 2 seconds.

Tab "OK" to confirm.

## USING THE XPLOVIEW SOFTWARE ON A COMPUTER

#### **Connecting the device**

Turn on / connect the WiFi adaptor in the Windows or Mac operating system.

Search for and connect to "xploview\_xxxxxx" under the list of available wireless networks. ("xxxxxx" is a 6 digit code unique to your device.)

The default password of the device is 12345678.

#### Starting the xploview software

Windows based PC

The xploview software can be launched by double clicking the xploview icon < 3 > from the desktop, or from the start menu.

Mac OS based PC

The xploview software can be launched by double clicking the xploview icon < > from the Applications menu.

#### Selecting the device in the xploview software

From the "Device" drop-down menu under the "System Settings" menu, choose "xploview Wireless" and click the "Connect" button and click "Apply".

• • •	Settings			
Device Setup Device: xploview Wireless Resolution: 040X480	192.168.5.1	: RORO Connect		>3
Take: 40 shots per Duration: 200 minute(s) Movie Setup Resolution: 840X480 Maximum file size: 50	minute hour day hour(s) day(s)	(max. 300) (max. 999)	Default	
Save Setting //Jayrs/Documents/xploview Folder: Not to create Language Setting English	e new folder			

#### **Button menu**

The icons on the button menu :

Open **System Settings Menu** (see system settings menu on page23).

Capture on screen image.

To start and to stop **Timed Shot**. Images will be captured at a regular interval (see system settings menu on page 24 to adjust frequency and duration).

To start and to stop Video Recording.

**Information** of the application software. This information maybe helpful when updating software.

Shut down the application software.

### Full screen viewing

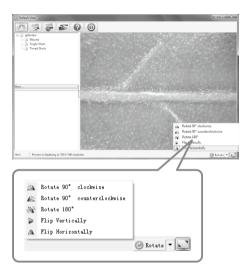

To activate the full screen mode, click the full screen button < 💽 > located on the bottom right corner of the xploview application software window.

To exit full screen mode, either double click on the screen, or press the "Esc" button on the keyboard.

### Image rotation / flip

Click < @ Rotate • > button to rotate or preview screen.

#### System settings menu

The first time the xploview software is started, the default settings will be loaded, you may change these settings manually in the system settings menu.
