

Product technical sheet

QUBIX 2503

4 - 14 years

33 kids

43,9 m²

Material specification

- Hot-dip galvanized and powder coated construction of 140x140 mm profile,
- Transparent polycarbonate panels with a weather-resistant print,
- Covers made of hot-dip galvanized and powder coated steel mesh,
- Side panels made of durable HPL plate, resistant to weather conditions,
- Stainless steel tube slide,
- Moving elements made of durable HPL plate, resistant to weather conditions,
- Spherical windows made of polycarbonate,
- Musical panels made of stainless steel pipes, with a paddle made of certified, safe rubber attached,
- "Talking pipe" a pipe made of hot-dip galvanized and powder-coated steel,
- Steel ropes in polypropylene braid, connected with durable plastic elements, stainless steel or aluminum,
- Calibrated stainless steel chains, preventing fingers entrapment,
- Stainless steel screws and/or screws covered with plastic caps,

Additional information

- equipment adapted for the disabled; intended for public playgrounds;
- equipment has a certificate issued by an accredited entity or a declaration of conformity;
- no sharp edges or chinks that would pose a danger of jimming the head, fingers or any other body parts;
- anchoring on flat surface, 80/70/60 cm deep;
- slide should not be installed southwards;
- render is for reference only, the actual appearance of the equipment and its color may vary;

Guarantee

30 year guarantee -Structural strength of steel and stainless steel components

15 year guarantee -Structural failure of steel and stainless steel, for dynamic equipment

10 year guarantee - Structural failure of high density polyethylene and high pressure laminates components

5 year guarantee - Corrosion of stainless steel and hot dip galvanized and powder coated components; against bark beetles and rot in case of wooden structural elements
