Parts

4 x Wheels

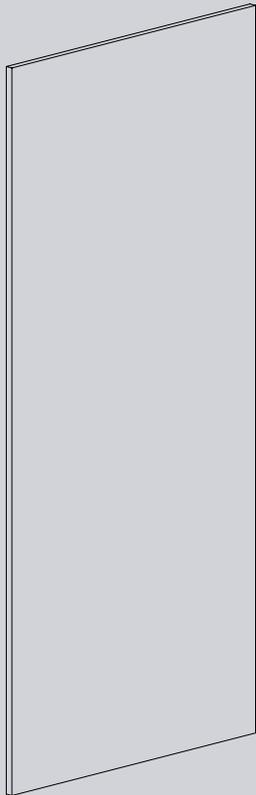

8 x Mounting Bracket

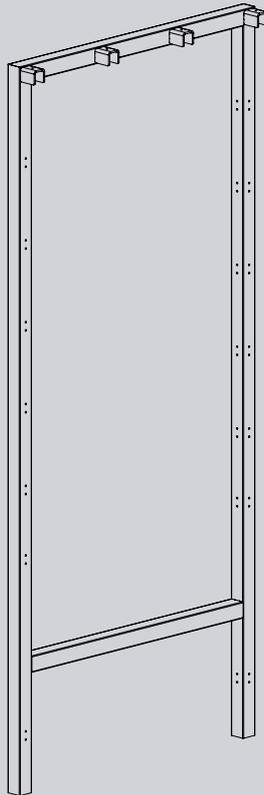

40 x M5 screws

4x Stud Mount

1 x Table Top

2 x Sidewalls

4 x Profiles,
Top

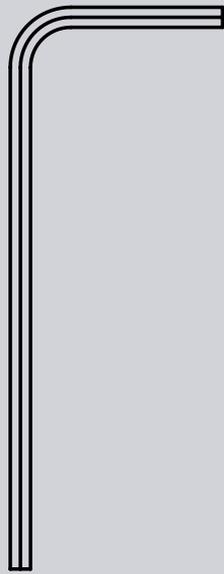

2 x Profiles,
Table

2 x Short
Profiles,
Table

What you will need

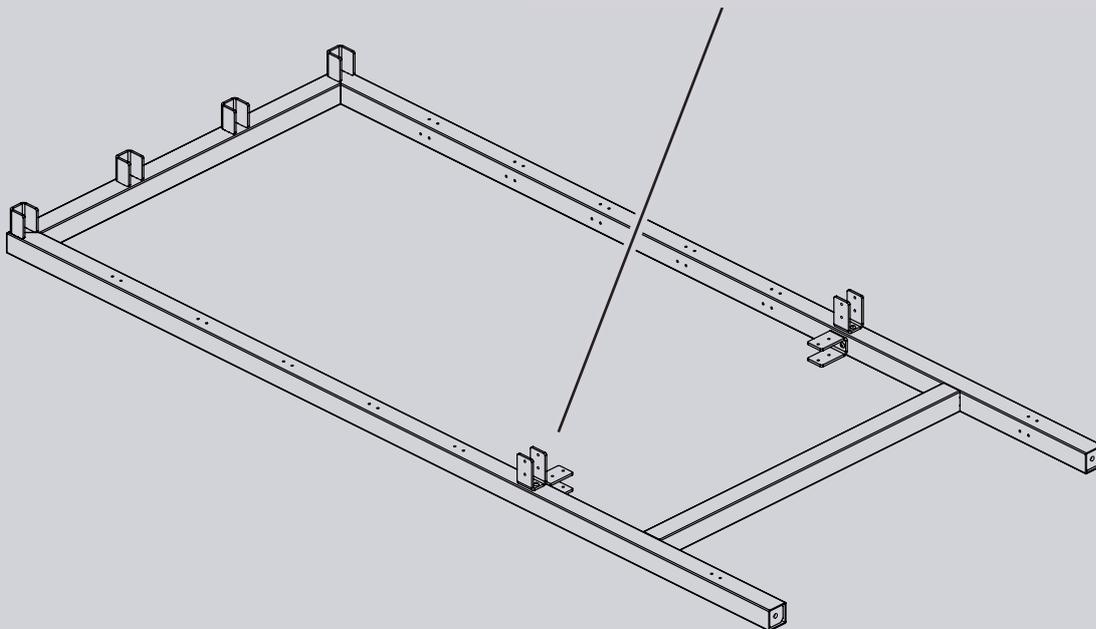

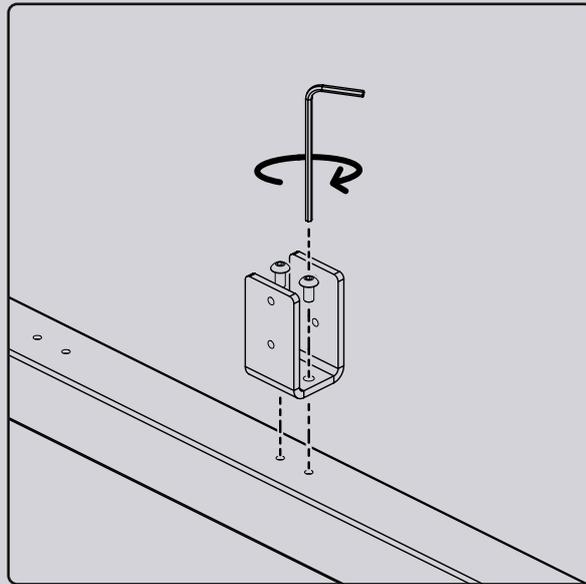

1x Allen Wrench Size 4
The Allen wrench is included in the box

6x Self-tapping screws

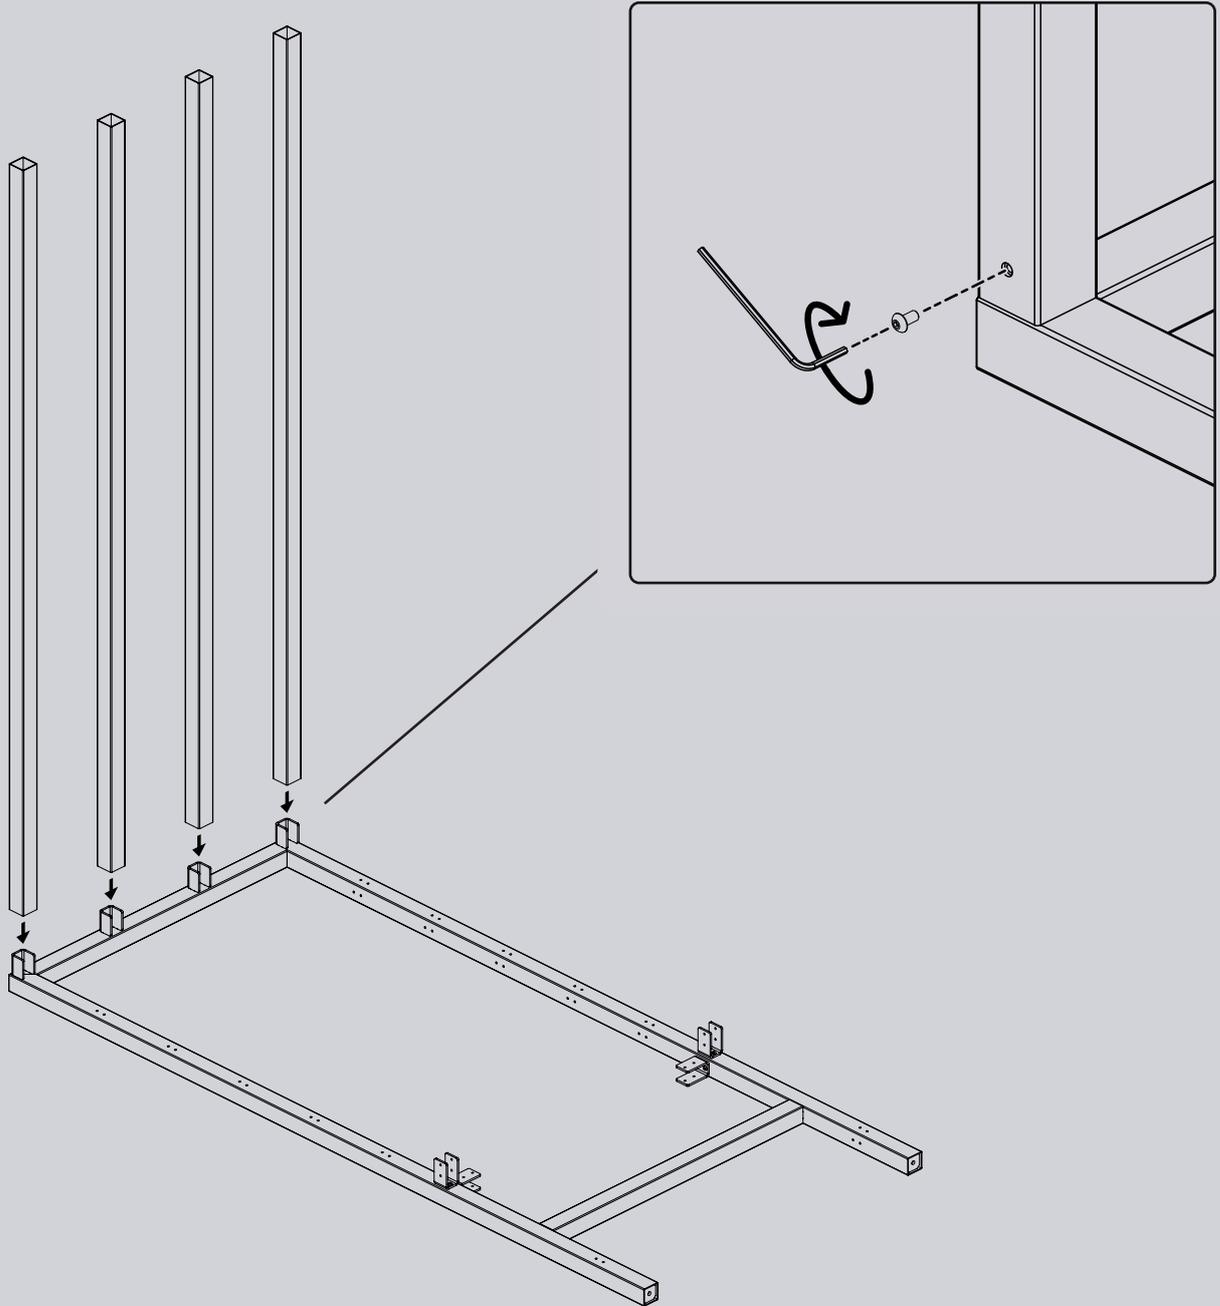

Step 1

Place one sidewall on the ground as shown below. It is recommended to place a carpet or other soft material underneath. Position the brackets and tighten the screws securely. Repeat this step with the other sidewall.

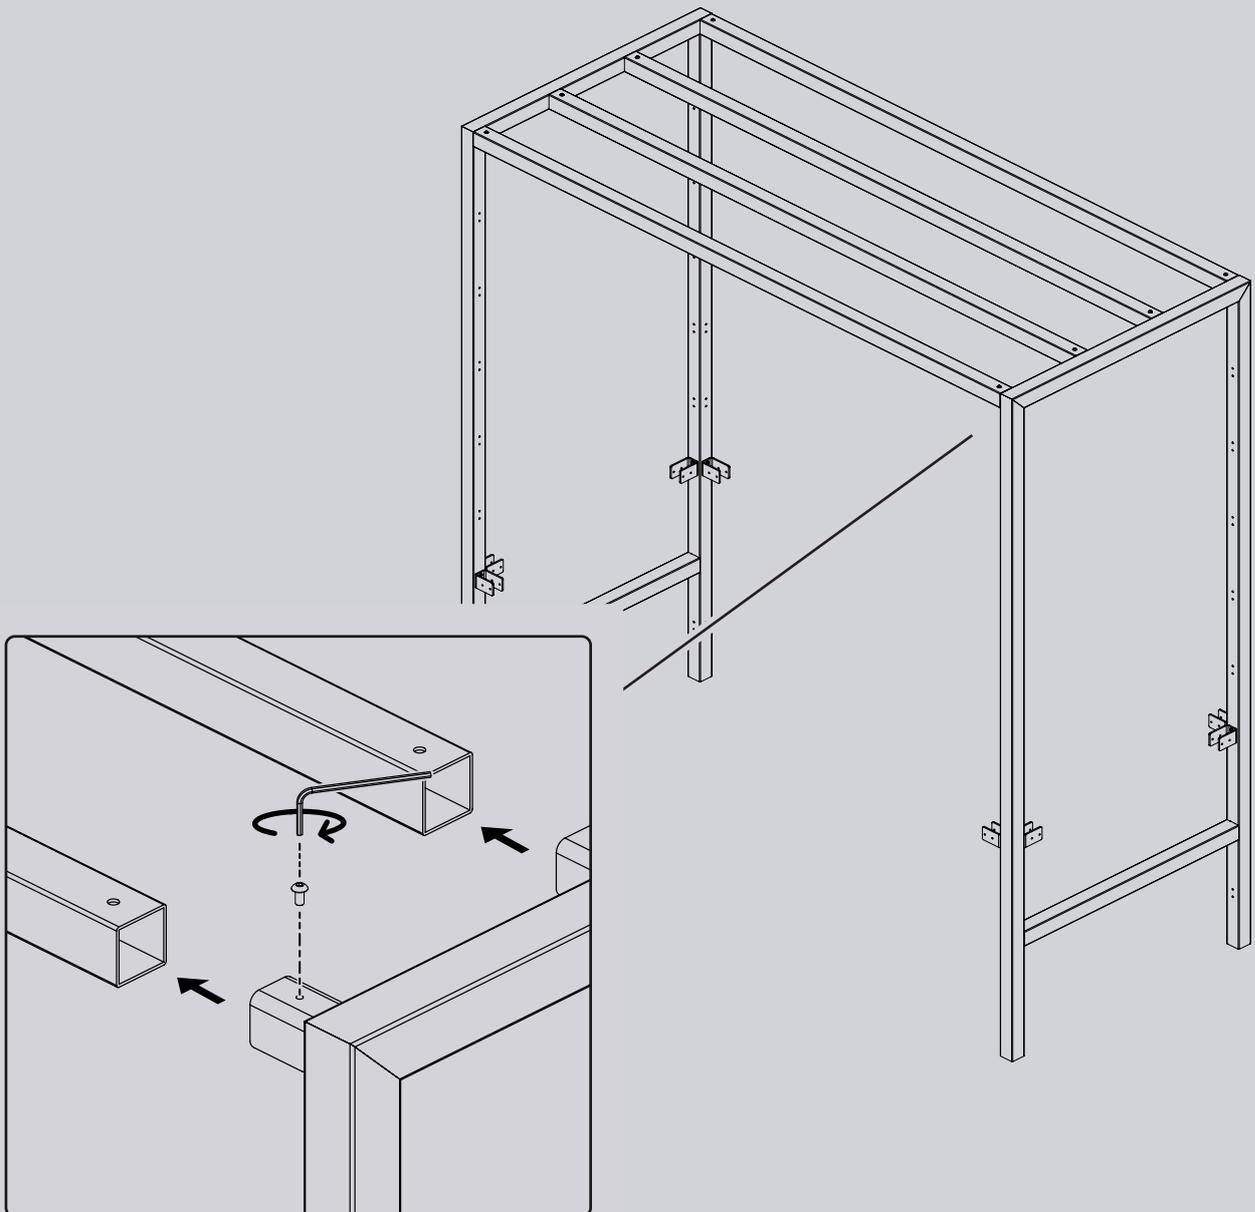

Step 2

Slide the top profiles into place and tighten the screws securely.

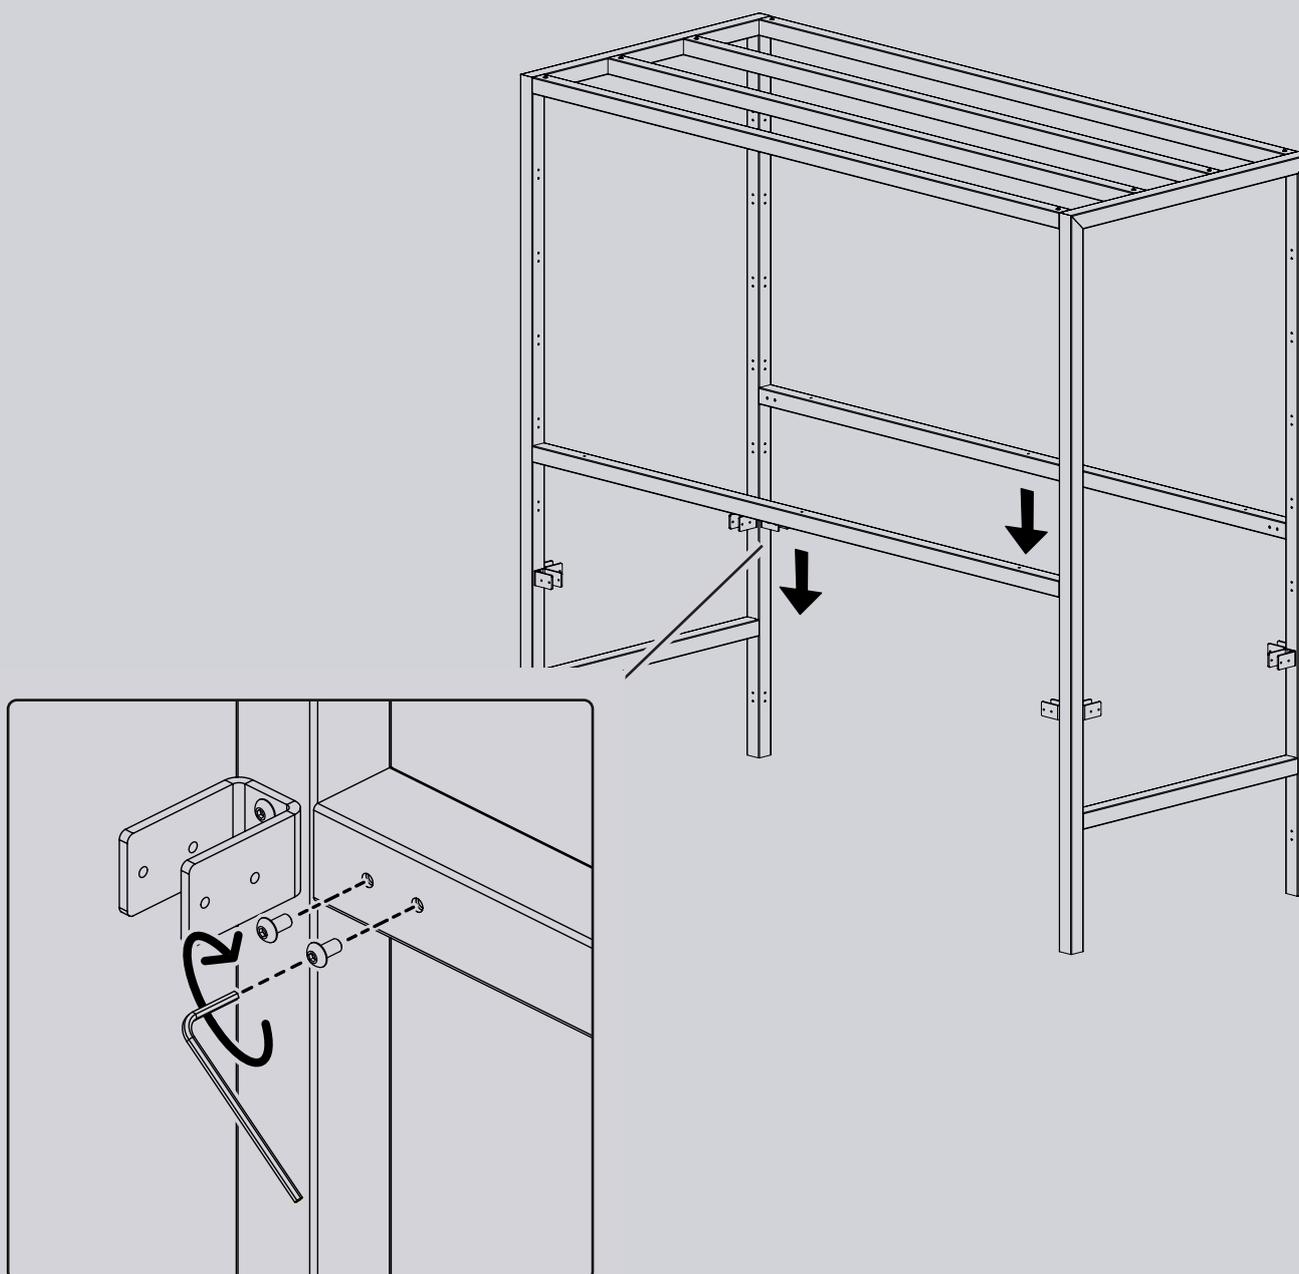

Step 3

Align the second sidewall with the profiles, press it into place and tighten the screws securely.

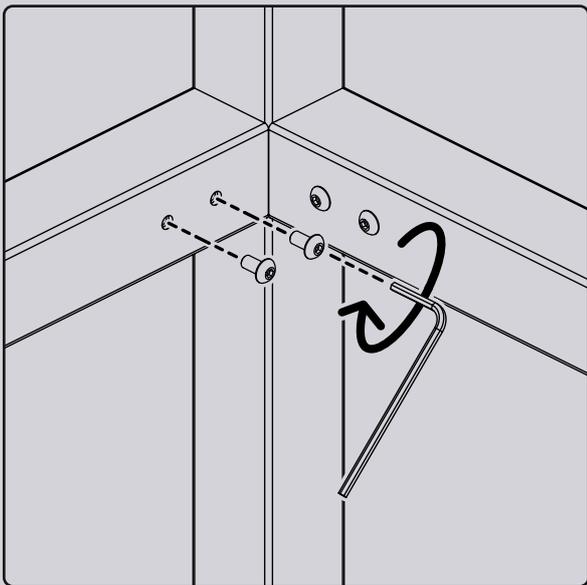

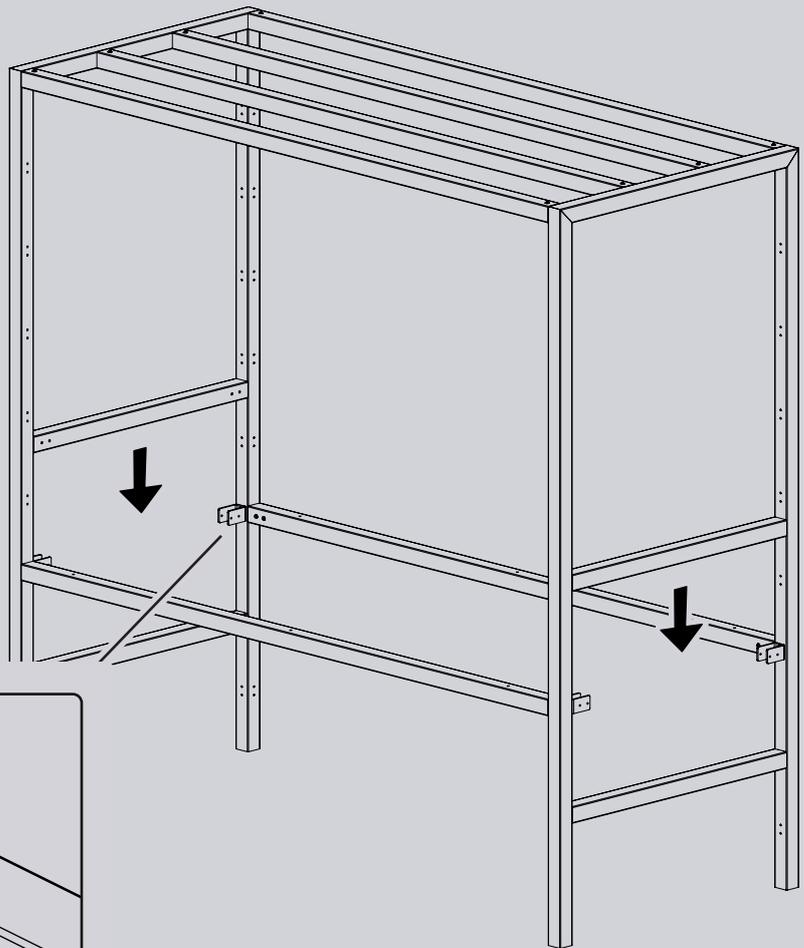

Step 4

Place the table profiles on the brackets and fasten them securely with screws.

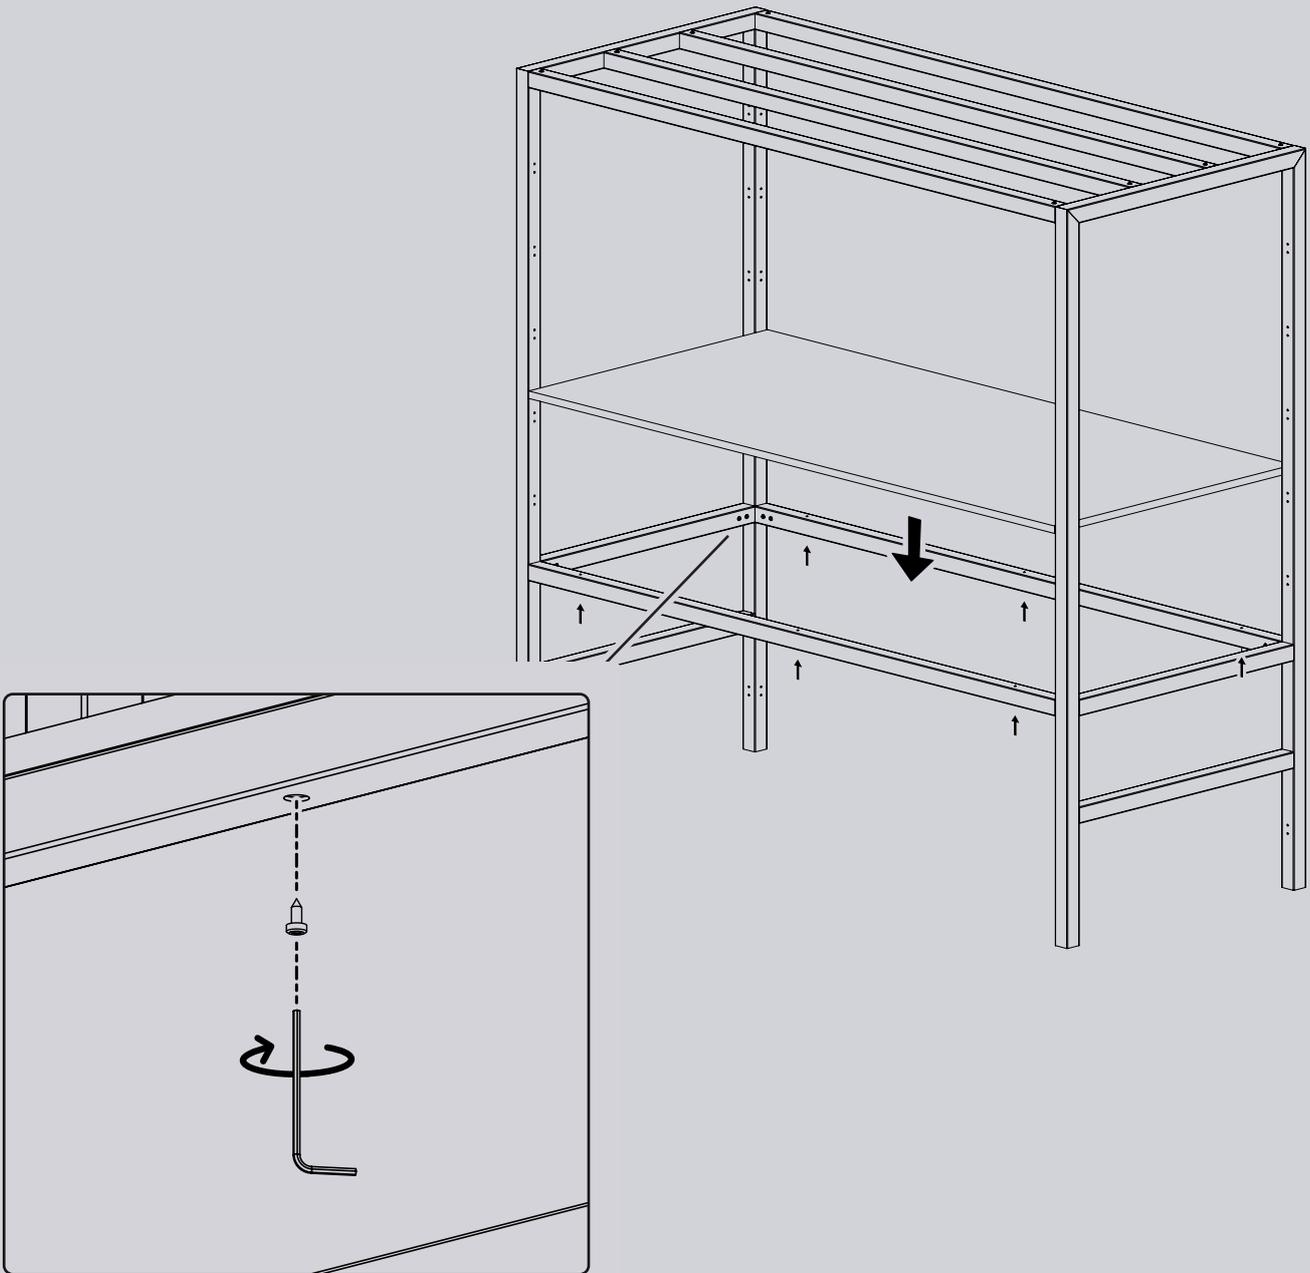

Step 5

Place the short table profiles on the brackets and fasten them securely with screws.

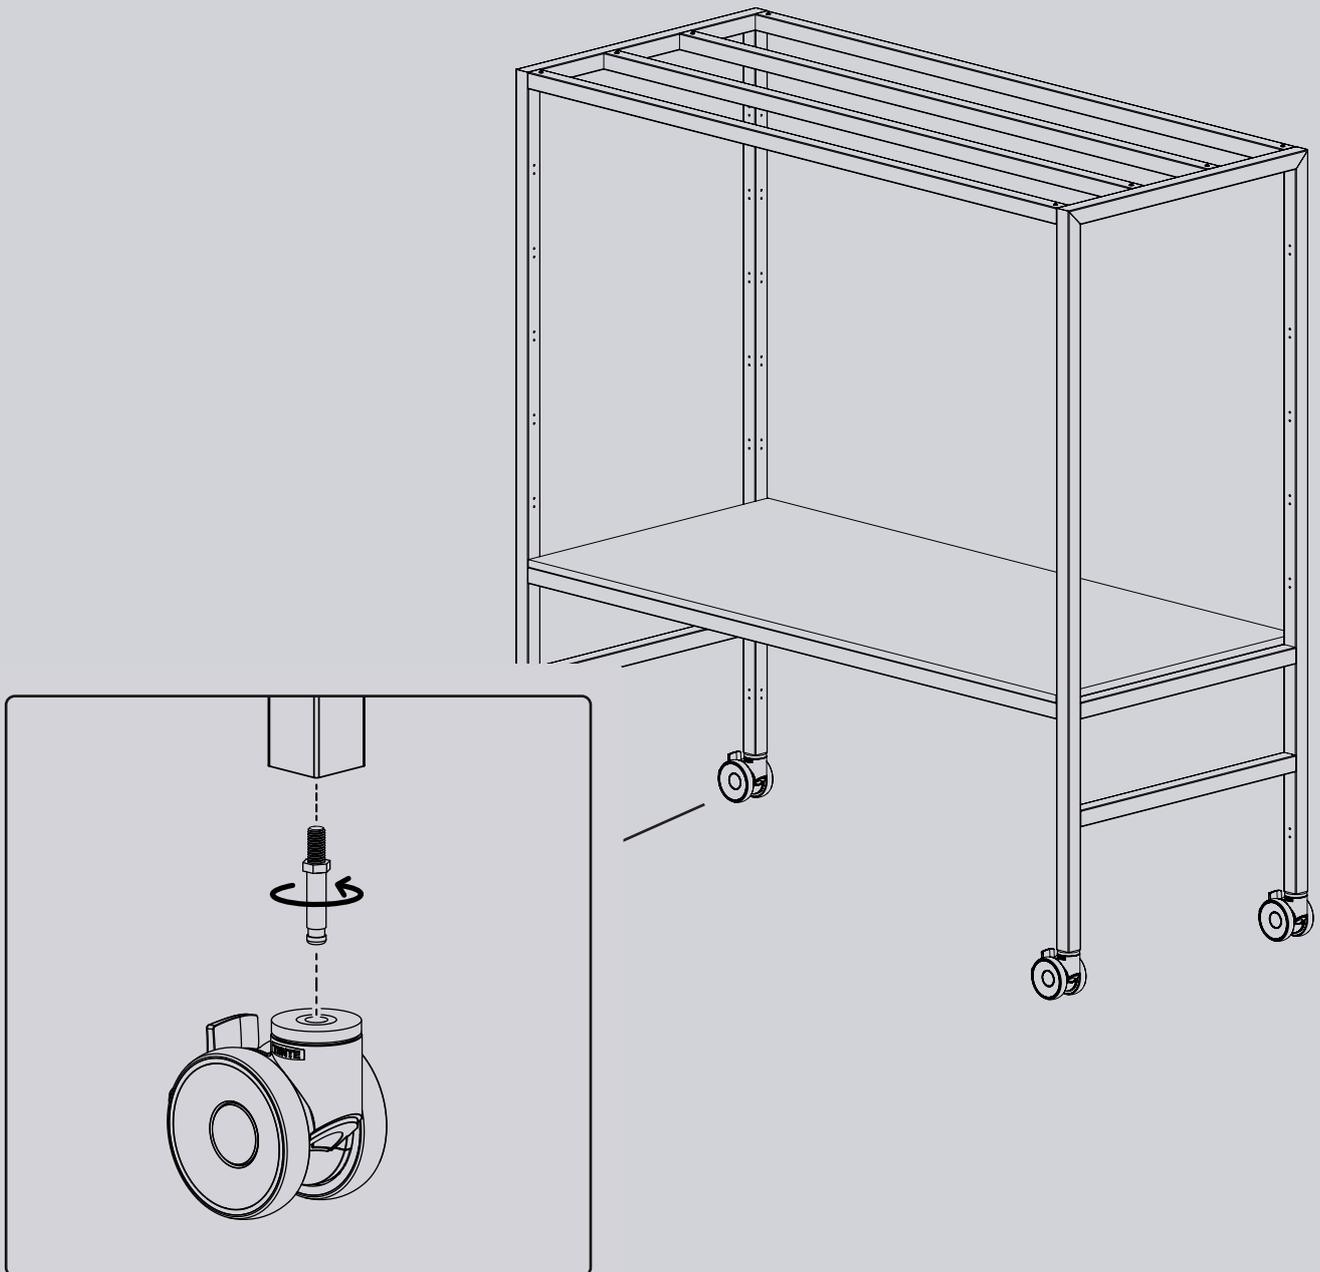

Step 6

Place the tabletop with the pre-drilled holes facing down. Once in position, tighten the screws securely.

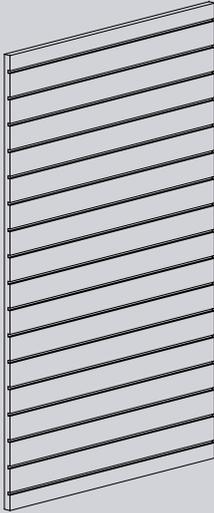

Step 7

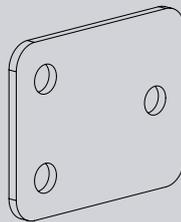

Securely fasten the stud mounts and press the wheels into place.

Wood Panel, Parts

1 x Wood Panel

6 x Mounting Plate

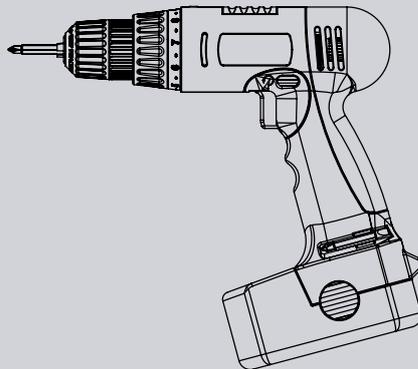

12 x M5 screws

What you will need

1x Allen Wrench Size 4

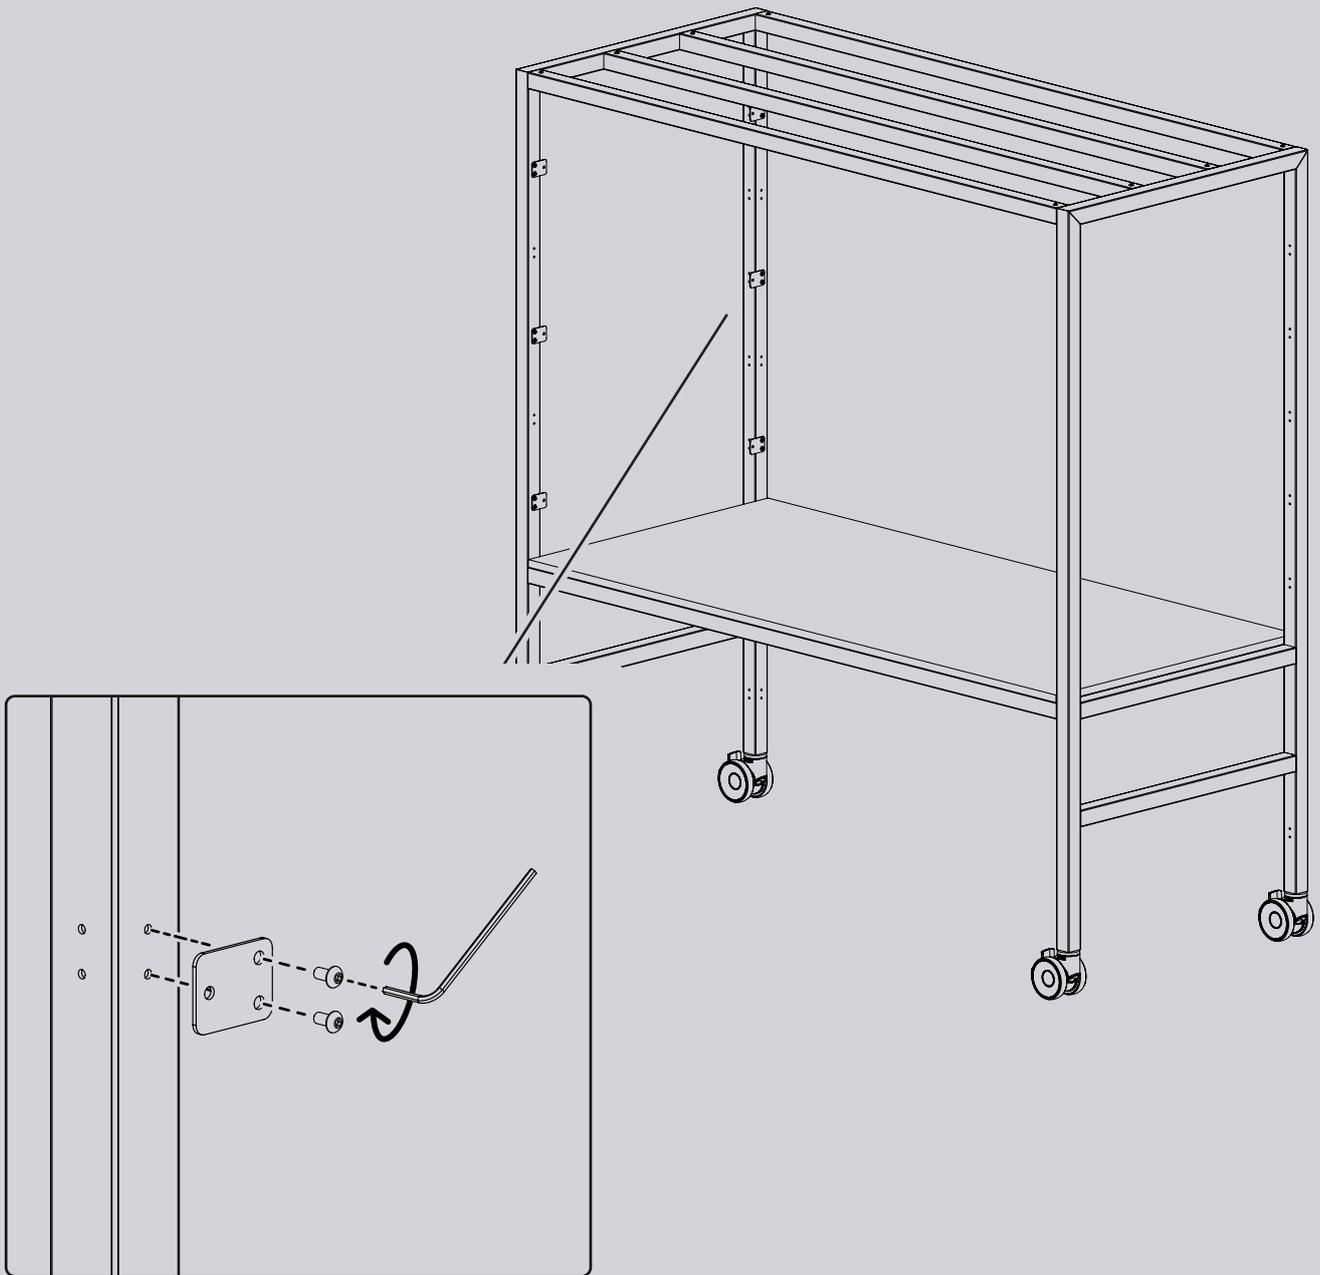

1x Electric Drill

6x Self-tapping screws
